Trusted Comprehensive Family Care

Dear Patient,

May 10, 2010

Eagle Physicians @ Lake Jeanette value the relationships with our Medicaid patients that we have developed over the years, and we want to continue those relationships with our established patients.

However, effective May 10, 2010, Eagle Physicians @ Lake Jeanette will no longer be accepting new Medicaid patients.

We will work with you willingly to transfer your records to another provider who is accepting new Medicaid patients if you join the practice with traditional insurance and, within the first 12 months, become insured through the Medicaid program.

You may contact a Medicaid representative to get information on participating providers in your area.

If you have any questions, please call us at (336) 482-2300.

Thank you.
