

Trusted Comprehensive Family Care

**ID Requirements for Parents and Guardians
 of our Pediatric Patients**

In order to comply with the *Fair and Accurate Credit Transactions Act* effective for all medical facilities November 1, 2009, we are now required to obtain a copy of a valid photo ID for all patients. Since children typically do not have photo ID's, we are required to obtain the ID of the parent or guardian accompanying your child to their visit.

In order to protect your child and to make sure that there will be no delays in seeing your child, we would like for you to identify those individuals that you authorize to accompany your child to their appointments.

I _____ authorize the following individuals
Print Name
 to accompany my child to their appointment with Eagle Physicians:

Print Name _____
Relationship
