

## **Gastroenterology Practice 2025 Opportunity**

Eagle Gastroenterology is recruiting a gastroenterologist recently trained or just completing fellowship to join our highly regarded group of 6 gastroenterologists in Greensboro, North Carolina. As part of Eagle Physicians & Associates, the largest physician-owned group in the area, we enjoy a broad primary care referral base for our group, enabling us to focus exclusively on consultative and procedural gastroenterology. Moreover, we enjoy excellent referral relationships within a highly collegial medical community, professional stability and good profitability.

Outpatient procedures are done predominantly at the Eagle Endoscopy Center, an accredited facility with 4 first-class procedure rooms and an outstanding support staff, located in the same building as the Eagle Gastroenterology office. From ERBE coagulators to Olympus 190-series scopes, we have chosen top-of-the-line equipment for the Eagle Endoscopy Center to allow us to give the best patient care possible.

Inpatient consults and procedures on hospitalized patients are done at the 500-bed Moses Cone Hospital, located across the street from the Eagle Gastroenterology office, and at the 150-bed Wesley Long Hospital, approximately 5 minutes from the Eagle Gastroenterology office. The Moses Cone Health System operates both hospitals and is a community-based, non-profit, fiscally sound, forward-thinking organization. The majority of the time physicians cover Wesley Long Hospital, which is a smaller community hospital. Cone Health's residency programs in Internal Medicine and Family Practice are affiliated with the UNC School of Medicine.

The ideal candidate for this position will be a "people person" and advanced endoscopic skills are not needed for this general GI opening. Our expectations also include excellent communication skills, good teamwork with staff and colleagues, a solid work ethic and a strong service orientation toward patients and referring physicians. Physician time is spent 30% in the clinic and 70% in the endoscopy center and have ½ a day each week for administration time to catch-up with documentation. Flu vaccine is required as a condition of employment, absent Eagle approved exemption.

We offer a competitive initial guaranteed salary during the non-shareholder period of employment, plus a productivity bonus opportunity during the non-shareholder period of employment. Office shareholder option is available after one fiscal year and Board Certification is required to be completed. There is a three-year partnership track in the Endoscopy Center at no cost to the physician. The shareholder income distribution formula is almost entirely productivity based. GI call will be "1 in 7" rotation.

Eagle Physicians is located in Greensboro, a city of 300,000+ in central North Carolina with a service area population in excess of 1 million, approximately 2 hours from the mountains and 3 hours from the Atlantic beaches. Driving time within Greensboro is minimal and hassle free. There is a four-season climate (winter is very short and moderate!) Local arts, education and recreation opportunities are plentiful, including 4 colleges and universities, the prestigious Eastern Music Festival, a great park system with lakes, bike trails and gardens, a variety of public and private schools, numerous faith organizations and clubs to engage nearly every possible interest, and a regional shopping and convention center.

The professional profiles of the Eagle Gastroenterologists are on the Eagle website at [www.eaglemds.com](http://www.eaglemds.com).
